Illuminated Products

The LED Flex-Lite is a combination of the latest High Bright SMD LED and flexible PCB technology which ensures reliability and performance excellence.

Our LED Flex-Lite is available unsealed, with 3M double back tape for peel and stick mounting, with a water and impact resistant silicone sleeve which is ideal for indoor and outdoor applications and an extruded low profile dust proof option with double back tape for ease of mounting.

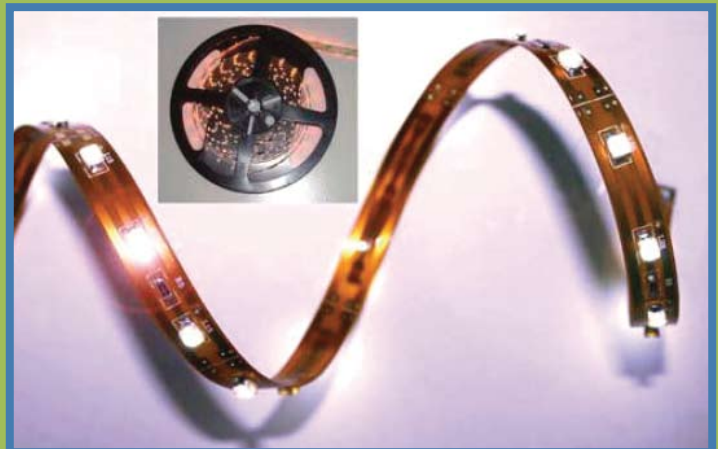

The long life, low power Flex-Lite is available in Red, Green, Blue, Yellow, Warm White, Pure White and RGB.

The RGB Flex-Lite's flexibility, simple installation and ability to program color changes make this a popular multi-functional product for designers involved in bar, club, restaurant and home lighting. A remote control is also available for programming the RGB Flex-Lite.
