

March 2023

Subject: REACH Compliance

To our valued Business Partners:

Sorenson Lighted Controls (SoLiCo) complies with current REACH regulations as established per EU REACH regulation (EC) NO 1907/2006 and which have periodically updated.

To the best of our knowledge the parts, processes and materials used comply with the requirements of the European Regulation for the Registration, Evaluation, and Authorization of Chemicals ("REACH directive EC NO 1907/2006), 233 Substances Listed as of 17 January 2023.

Lead is a substance of very high concern; some parts may contain lead in brass components above the threshold limit. Cadmium is a substance of very high concern; some parts may contain Cadmium in Electrical contacts above the threshold limit. Lead and Cadmium when used; are in compliance with Annex XVII, Conditions of Restriction.

SoLiCo has established controls in its Design and Development Supplier Development processes, and in Management Systems to control and monitor current SVHC per REACH requirements.
